NUR IHSAN

FULL STACK DEVELOPER

I'm A Full Stack Developer who has a high desire to learn in developing mobile and web applications. Able to work together in teams. Experience using NodeJs, ExpressJs, ReactJs, and the React Native Framework in creating web or mobile applications. Previously, he made an orange sorting tool using an Arduino microcontroller and made a Cash Management System application in a company using the Codeigniter framework. Currently developing a Realtime Chat application using React Native and Firebase.
